<b>Applicant</b>	Austar Realty Ltd
<b>LIM address</b>	118 Laingholm Drive Laingholm
<b>Application number</b>	8270201268
<b>Customer Reference</b>	389 Huia Road
<b>Date issued</b>	16-Dec-2019
<b>Legal Description</b>	LOT 762 DP 35362
<b>Certificates of title</b>	NA952/85

---

**Disclaimer**

This Land Information Memorandum (LIM) has been prepared for the applicant for the purpose of section 44A of the Local Government Official Information and Meetings Act 1987.

The LIM includes information which:

- Must be included pursuant to section 44A of the Local Government Official Information and Meetings Act 1987
- Council at its discretion considers should be included because it relates to land
- Is considered to be relevant and reliable

This LIM does not include other information:

- Held by council that is not required to be included
- Relating to the land which is unknown to the council
- Held by other organisations which also hold land information

Council has not carried out an inspection of the land and/or buildings for the purpose of preparing this LIM. Council records may not show illegal or unauthorised building or works on the land.

The applicant is solely responsible for ensuring that the land or any building on the land is suitable for a particular purpose and for sourcing other information held by the council or other bodies. In addition, the applicant should check the Certificate of Title as it might also contain obligations relating to the land.

The text and attachments of this document should be considered together.

This Land Information Memorandum is valid as at the date of issue only.

## s44A(2)(a) Information identifying any special feature or characteristics of the land

This information should not be regarded as a full analysis of the site features of this land, as there may be features that the Council is unaware of. The applicant is solely responsible for ensuring that the land is suitable for a particular purpose including development.

### Site Contamination

No land contamination data are available in Council's regulatory records.

### Wind Zones

Wind Zone(s) for this property: High wind speed of 44 m/s

The wind zones are based on wind speed data specific to all building sites as outlined in NZS 3604:2011. Other factors such as topographic classes, site exposure and ground roughness determine the actual wind bracing demands and bracing elements required for the building.

For further information refer to NZS 3604:2011 Section 5 — Bracing Design

### Soil Issues

Soil issues recorded. The land may not be suitable for particular development or land use purposes. A soil report may be required to/must be submitted with any building and/or resource consent application.

Effective Date	Description	Details
30/06/2000	Stability Sensitive	Please note this property was previously shown under the Transitional District Plan as being located in a Stability sensitive area.

If any soil information/reports have been prepared in relation to this property, they will be available for viewing at an Auckland Council Service Centre.

### Coastal Inundation

The site is potentially at risk of coastal inundation from extreme storm surge events and climate-change related sea-level rise.

Predicted coastal inundation is modelled on three scenarios:

- 1% AEP coastal-storm surge inundation (to demonstrate present day risk in alignment with the Auckland Unitary Plan activity controls)
- 1% AEP coastal-storm surge inundation plus 1m sea level rise (in alignment with Auckland Unitary Plan activity controls)
- 1% AEP coastal-storm surge inundation plus 2m sea level rise (to demonstrate longer term risk with ongoing sea-level rise).

The Coastal Inundation shown in the Auckland Unitary Plan – Operative in Part “Controls” map corresponds to the 1% AEP plus 1m sea-level rise Coastal Inundation scenario calculated at the time the Unitary Plan was established. The Coastal Inundation data shown in the “Special Land Features – Natural Hazards - Coastal Inundation” map is also shown on the Auckland Council Online map viewer (Geomaps) and is subject to updates to reflect our latest, best available understanding of coastal inundation and sea-level rise processes.

Storm surge is the rise in sea-level due to meteorological effects. The 1% AEP coastal-storm inundation is at a level that has a 1% chance of being equalled or exceeded per year.

Sea-level rise values are based on the projections by the Intergovernmental Panel on Climate Change fifth assessment report (2015). One meter sea-level rise is representative of the upper bound scenario to 2115. Two meter sea-level rise is representative of potential, longer term sea-level rise (2120 to approximately 2200).

Any proposed development on this site may be subject to Auckland Unitary Plan activity controls or require a detailed coastal hazard assessment report to be completed by a qualified expert.

## Flooding

This statement entitled "Flooding" appears on all LIMs.

Known flooding information is displayed on the map attached to this LIM entitled "Special Land Features – Natural Hazards - Flooding".

The information shown in the "Special Land Features - Natural Hazards - Flooding" map is also shown on the Auckland Council online map viewer (Geomaps), at [www.aucklandcouncil.govt.nz](http://www.aucklandcouncil.govt.nz), which is updated from time to time.

Any proposed development may require a flooding assessment to be provided by the applicant.

The absence of flooding on the "Special Land Features - Natural Hazards - Flooding" map does not exclude the possibility of the site flooding, particularly from Overland Flow Paths which may be on other properties.

## Exposure Zones

New Zealand Standard 3604:2011 classifies all properties in New Zealand into zones based on environmental features including wind, earthquake, snow load and exposure. These zones are relevant to building requirements, such as strength of buildings, materials that should be used and maintenance. All building sites are classified as being in Exposure Zones Extreme Sea Spray, B, C, or D, depending on the severity of exposure to wind driven salt.

This property is classified as: Zone D

High — Coastal areas with high risk of wind-blown sea-spray salt deposits. This is defined as within 500m of the sea including harbours, or 100m from tidal estuaries and sheltered inlets. The coastal area also includes all offshore islands including Waiheke Island, Great Barrier Island. Within each of the zones there are different environmental locations that require fittings and fixtures appropriate to its designation as outlined Tables 4.1 to 4.3 in NZS 3604:2011 being either "closed", "sheltered" or "exposed". For further information refer to NZS 3604:2011 Section 4 — Durability.

### s44A(2)(b) Information on private and public stormwater and sewerage drains

Information on private and public stormwater and sewerage drains is shown on the **underground services map** attached.

Note: Private drainage is the responsibility of the land owner up to and including the point of connection to the public sewer or drain.

Effective Date	Description	Details
07/04/2009	Manhole on site	Council's as-built records indicate there is a manhole(s), for wastewater or stormwater services, located on your property. It is the property owners' responsibility to ensure that these manholes are accessible by maintenance staff at all times, and that each manhole lid is level with the adjacent ground. If you are unable to locate the manhole(s) or a lid level needs raising or lowering, please contact EcoWater - Council's Drainage Department who can arrange for the necessary work to be carried out. The property owner may be liable for the cost of this work.
17/07/2003	> 200mm waste water sewer	An Auckland Council Trunk Sanitary Sewer crosses the property. Permission to build over this sewer must be obtained from the Drainage Assets Engineer.

### s44(2)(ba) Information notified to Council by a drinking water supplier under Section 69ZH of the Health Act 1956

Prospective purchasers should be aware of other drinking water systems connected to this property. There may also be private drinking water supply systems such as rainwater tanks or private water bores. You are advised to clarify the drinking water supply with the current landowner.

No Information has been notified to Council.

### s44A(2)(bb) Information Council holds regarding drinking water supply to the land

For metered water information, please contact **Watercare (09) 442 2222** for services provided to this property.

### s44A(2)(c) Information relating to any rates owing in relation to the land

<b>Billing Number/ Rate Account:</b>	12341668008
<b>Rates levied for the Year 2019/2020 :</b>	\$2,212.02
<b>Total rates to clear for the current year (including any arrears):</b>	\$2,443.09

The rates figures are provided as at 8 a.m. 16/12/2019. It is strongly advised these are not used for settlement purposes.

### Retrofit Your Home Programme

The Retrofit Your Home programme provides financial assistance, advice and information to householders wanting to create an improved home environment.

The scheme contributes to the achievement of the Air Quality National Environmental Standards encouraging the installation of clean heat and insulation in homes as well as supporting access to central government grants and subsidies. The programme offers homeowners a retrofit plan for their homes and financial assistance up to \$5000 repaid through a targeted rate.

 Auckland Council (09) 890 7898 if you require further information

 retrofit@aucklandcouncil.govt.nz

**s44A(2)(d) Consents, Certificates, Notices, Orders or Requisitions affecting the land or any buildings on the land(da) the information required to be provided to a territorial authority under section 362T(2) of the Building Act 2004:s44A and (2)(e) Information concerning any Certificate issued by a Building Certifier pursuant to the Building Act 1991 or the Building Act 2004**

Note: if the land is part of a cross lease title or unit title, consents and permits for the other flats or units may be included in this LIM. If the land has been subdivided there may be consents and permits included that relate to the original property.

It is recommended that the full property file is viewed and compared with the actual building and activities on the land to identify any illegal or unauthorised building works or activities.

### **Financial / development contributions**

Financial and development contributions are relevant for recently subdivided land, vacant lots, new residential unit(s) or where there is further development of a site. If any financial or development contribution has not been paid, Council can recover outstanding amount(s) from a subsequent owner of the land.

Please note that financial contributions and development contributions may be paid in land, cash or a combination of these. The form of payment of contributions may be subject to negotiation but final discretion remains with the Council.

### **Resource Management**

#### **Planning**

118 Laingholm Drive Laingholm

<b>Application No.</b>	<b>Description</b>	<b>Decision</b>	<b>Decision Date</b>
LUC-2012-231	Tree Consent Vegetation alteration - remove or prune Totara	Granted	04/04/2012

#### **Subdivisions**

There are **NO** Subdivision resource consents recorded.

#### **Engineering Approvals**

There are **NO** Engineering approvals recorded.

If there are any conditions, then only that portion of the consent will be included in the attachments section. The applicant should satisfy themselves as to whether all conditions of resource consents for this property have been met.

#### **Further Information**

The Council may hold additional information for this property, for example concerning resource consents for

discharges to air, land or water issued by the former Auckland Regional Council prior to 1 November 2010. If you would like Auckland Council to search for this type of information, please contact us.

## Building

118 Laingholm Drive Laingholm

Application No.	Description	Issue Date	Status
BPM-1977-6791	Addition to dwelling	31/03/1977	Issued (See Note 1)
BPM-1980-13982	Addition to dwelling - Lounge/Kitchen and Garage	31/12/1980	Issued (See Note 1)
BPM-1981-16193	Install space heater	31/12/1981	Issued (See Note 1)
BPM-1983-24663	Addition to dwelling - Basement development, bedroom and bathroom	31/12/1983	Issued (See Note 1)
BPM-1991-9523	Addition to dwelling - Deck	31/12/1991	Issued (See Note 1)
ABA-2004-1899	Heater installation	14/06/2004	CCC Issued 29/06/2004 (See Note 2)
COM-2004-3495	Awning	12/11/2004	CCC Issued 20/01/2005 (See Note 2)

Note	Description
1	Permit issued prior to the Building Act 1991 taking effect. Code Compliance Certificates (CCC) were not required.
2	Code Compliance Certificate (CCC) for this consent was issued.

Please note that prior to the Building Act 1991; Councils were not required to maintain full records of building consents [etc] issued under the Building Act. While Auckland Council has always endeavoured to maintain full records of pre-Building Act 1991 matters, not all records for this period have survived and in other cases where building work is documented, information may be incomplete. Council does not accept responsibility for any omission.

It is recommended that the Council property file is viewed and compared with the actual building and activities on site to identify any illegal or unauthorised building works or activities.

## Compliance Schedules (Building Warrant of Fitness)

The Council has no record of a Compliance Schedule for this property/building.

If it is evident that any specified systems such as lifts or commercial fire alarms are present in the building,

the owner must ensure there is a current compliance schedule or building warrant of fitness.

### Swimming/Spa Pool Barriers

---

The Council has no record of a swimming pool or spa pool being registered on this property. Swimming pools and spa pools must have a barrier that complies with the Building Act 2004.

Pool barrier information is available for viewing at <http://www.aucklandcouncil.govt.nz>

### Licences

---

There are NO current licences recorded

#### s44A(2)(ea) Information notified under Section 124 of the Weathertight Homes Resolution Services Act 2006

The Council has not been notified of any information under Section 124 of the Weathertight Homes Resolution Services Act 2006 relating to this property.

#### s44A (2)(f) Information relating to the use to which the land may be put and any conditions attached to that use

Purchasers or those intending to develop the land should satisfy themselves that the land is suitable for any intended use or future development proposal. In addition to any site specific limitations recorded below, general restrictions that apply across the region may be relevant to any development proposals on this property.

### Auckland Unitary Plan - Operative in Part (AUP:OP)

The **Auckland Unitary Plan - Operative in part(AUP:OP)** applies to this property and should be carefully reviewed and considered, as it may have implications for how this property can be developed and/or used. Those parts of the Auckland Unitary Plan that are operative replace the corresponding parts of legacy regional and district plans. However, certain parts of the AUP:OP are the subject of appeals and have not become operative. If a property is subject to an appeal this will be identified on the attached Unitary Plan Property Summary Report. Where this is the case, both the Auckland Unitary Plan Decisions version and the legacy regional and district plans will need to be considered.

The AUP:OP zones, controls, overlays, precincts, and designations that apply to this property are set out in the Property Summary Report, which is attached to this memorandum.

The AUP:OP can be viewed here:

<https://www.aucklandcouncil.govt.nz/unitaryplan>

The legacy regional and district plans can be viewed here:

<https://www.aucklandcouncil.govt.nz/districtplans>

<https://www.aucklandcouncil.govt.nz/regionalplans>

The appeals to the AUP:OP can be viewed here:

<https://www.aucklandcouncil.govt.nz/unitaryplanappeals>

### Auckland Council District Plan - Hauraki Gulf Islands Section (Operative 2013) (DP:HGI)

While the regional provisions in the AUP:OP apply to the Hauraki Gulf Islands, and are set out in the

Property Summary Report attached to this memorandum, the AUP:OP does not contain any district provisions for the Hauraki Gulf Islands. If the Property Summary Report attached to this memorandum lists its zone as "Hauraki Gulf Islands", the district provisions that apply are in the Auckland Council District Plan Hauraki Gulf Islands Section (Operative 2013) (**DP:HGI**).

The relevant maps of the DP:HGI are attached to this memorandum, if applicable. The text of the DP:HGI can be found here:

<https://www.aucklandcouncil.govt.nz/aurakigulfislands>

### **Plan Changes and Notices of Requirement**

Changes to the AUP:OP and DP:HGI may be proposed from time to time. These proposed plan changes may relate to either the maps or the text of those plans. Any proposed changes to the AUP:OP relevant to this property will be listed as a modification in the Property Summary Report attached to this memorandum. However, proposed changes to the DP:HGI will not appear on the Property Summary report. That information can be found on the Auckland Council website.

Please refer to the AUP:OP for information on any proposed Plan Changes or see the Auckland Council modifications website at:

<https://www.aucklandcouncil.govt.nz/unitaryplanmodifications>

Information relating to any proposed Plan Changes to DP:HGI can be found here:

<https://www.aucklandcouncil.govt.nz/aurakigulfislands>

From time to time a requiring authority, such as a Ministry of the Crown or a council controlled organisation, may notify Auckland Council that they require certain land to be designated for a certain purpose. If this property is the subject of such a notice of requirement, that notice may have implications for how this property can be developed or used from the date it is received by Council.

If this property is not on the Hauraki Gulf Islands, any notices of requirement applicable will be listed as a modification in the Property Summary Report attached to this memorandum.

If this property is on the Hauraki Gulf Islands, any notice of requirement will be available on the Auckland Council Website.

Information on all current notices of requirement can be found on the modifications page here:

<https://www.aucklandcouncil.govt.nz/unitaryplanmodifications>

Copies of the appeals to the Auckland Unitary Plan can be viewed online at:

<https://www.aucklandcouncil.govt.nz/unitaryplanappeals>

### **Information concerning Caveat, Bond, Encumbrance, Consent Notice and Covenant**

For any information concerning Caveats, Bonds, Encumbrances, Consent Notices or Covenants, please refer to the Certificate of Title for this property.

**s44A(2)(g) Information regarding the land which has been notified to Council by another statutory organisation**

No information has been notified to Council.

**s44A(2)(h) Information regarding the land which has been notified to Council by any network utility operator pursuant to the Building Act 1991 or Building Act 2004**

Underground Services and District Plan maps are attached.

Please note: Height restrictions apply where overhead power lines cross the site. Works near water services utilities may require approval. Works near high-pressure Gas, Oil or LPG pipelines create risk of damage and must first be approved. Please contact the relevant Utility provider in your area for further information.

Any escape of gas or liquid from the pipelines is potentially dangerous and requires immediate action as soon as discovered (Dial 111 and ask for the Fire Service).

## Attachments

As the placement of the building/s on the attached maps is based on aerial photography we cannot guarantee the accuracy. A formal survey will indicate the exact location of the boundaries.

**DECISION ON RESOURCE CONSENT APPLICATION LUC-2012-231  
 AT 118 LAINGHOLM DRIVE, LAINGHOLM**

Consent Application LUC-2012-231 has been made by John and Jennifer Scarr for a controlled activity consent to authorise work within the rootzone and pruning of one totara at 118 Laingholm Drive, Laingholm, on land described as LOT 762 DP 35362.

**Operative District Plan**

Auckland Council Operative District Plan (Waitakere Section) and in particular General Natural Area Rule 2.2.

**The reasons for granting this limited discretionary activity consent are as follows:**

- (a) The application is for a controlled activity resource consent, as such only those matters over which council has reserved its control have been considered. In addition, conditions of consent are only in relation to those matters.
- (b) In terms of section 104(1)(a) of the Resource Management Act 1991, any actual and potential effects on the environment by the proposal will be adequately avoided, remedied or mitigated by appropriate conditions of consent. In particular:
  - Method of root and branch pruning
 Furthermore, the proposal will introduce positive effects that includes:
  - Reducing damage to property
- (c) In terms of section 104(1)(b) of the Resource Management Act 1991, the proposal is not contrary to the relevant Objectives and Policies of the Plan, and regard has been had to the relevant assessment criteria. In particular:
  - As described in Attachment 1 – Vegetation Assessment by Kit Twinch dated 2 April 2012
  - The extent to which the work affects plant health
- (d) In terms of section 104(1)(c) of the Resource Management Act 1991, other relevant matters, including monitoring, have been considered in the determination of the application. In particular:
  - The Waitakere Ranges Heritage Area Act 2008. The purpose of the Act is to recognise the national, regional, and local significance of the Waitakere Ranges Heritage Area; and promote the protection and enhancement of its heritage features for present and future generation. Having regard to the purpose of the Act and each relevant objective, as if they were matters over which the consent authority has restricted the exercise of its discretion, it is considered that the proposed activity will be consistent with the purpose and objectives of the Act. In particular, the subject tree is not being removed. The Waitakere Ranges Heritage Features are listed in Attachment 2.
- (e) The proposal is not contrary to Part II of the Resource Management Act 1991.

## Conditions of Consent

Pursuant to section 108 of the Resource Management Act 1991, this consent is subject to the following conditions:

### ACTIVITY IN ACCORDANCE WITH THE PLANS

- (GEN 1) The activity shall be carried out in accordance with the plans and all information submitted with the application, being
- The application form and appended information submitted by John Scarr, dated 28 February 2012

### TERM OF CONSENT

- (TER 1) This consent will lapse two (2) years after the date of Council's decision unless the consent is given effect to or the Council decides to grant an extension to the period after which the consent lapses.

### VEGETATION ALTERATION

- (VEG 1) Activities that shall be excluded (unless consented to) from the rootzone of the tree includes but are not limited to:
- (a) machine excavation including trenching;
  - (b) excavation for silt fencing;
  - (c) cultivation;
  - (d) storage;
  - (e) preparation of chemicals, including preparation of cement products;
  - (f) parking of vehicles and plant;
  - (g) refuelling;
  - (h) dumping of waste;
  - (i) wash down and cleaning equipment;
  - (j) placement of fill;
  - (k) lighting of fires;
  - (l) soil level changes;
  - (m) temporary or permanent installation of utilities and signs, and
  - (n) physical damage to the tree.
- (VEG 2) Root pruning shall be restricted to roots that are identified as causing or likely to cause damage to significant property and root severance shall be done using a sharp implement.
- (VEG 3) Pruning of the tree shall retain or improve the shape and balance of the tree, where possible.
- (VEG 4) Pruning of the **totara (*Podocarpus totara*)** shall be restricted to not removing more than 50% of foliar cover and pruning back to growth points/branch unions.

## Advice notes

1. Root pruning should be limited to an amount and position that does not cause likely instability of the tree. The amount of root pruning that is suitable is directly relative to the amount of canopy reduction that has been carried out. If in doubt, consult an arborist for advice.
2. All tree work should be carried out by a competent tree surgeon or qualified arborist in accordance with the relevant codes of practice for tree work.
3. A copy of this consent should be held on site at all times during work on or around trees.
4. If you disagree with any of the above conditions you have a right of objection pursuant to section 357 of the Resource Management Act 1991. Any objection must be made in writing to Council within 15 working days of notification of the decision.
5. Please read the conditions of this resource consent carefully and make sure that you understand all the conditions that have been imposed before commencing the development.
6. This resource consent will lapse two years after the date of Council's decision **unless:**
  - (a) it is given effect to before the end of that period. To give effect to this consent, the activity allowed by this consent must be established and the conditions contained in the consent complied with. Please note that there must be compliance with all of the consent conditions once the land use has been established, or
  - (b) an application is made and granted prior to the expiry of that period for a time extension. The statutory considerations that apply to extensions are set out in section 125 of the RMA.
7. The consent holder shall obtain all other necessary consents and permits, including those under the Building Act 2004, and the Historic Places Act 1993. This consent does not remove the need to comply with all other applicable Acts (including the Property Law Act 2007), regulations, relevant Bylaws, and rules of law. This consent does not constitute building consent approval. Please check whether a building consent is required under the Building Act 2004. Please note that the approval of this resource consent, including consent conditions specified above, may affect a previously issued building consent for the same project, in which case a new building consent may be required.
8. The granting of this resource consent does not in any way allow the consent holder to enter and undertake works within neighbouring properties (may include cross lease properties), without first obtaining the agreement of all owners and occupiers of said land to undertake the proposed works. Any negotiation or agreement is the full responsibility of the consent holder, and is a private agreement that does not involve Council. Should any disputes arise between the private parties, these are civil matters which can be taken to independent mediation or disputes tribunal for resolution. It is recommended that the private agreement be legally documented to avoid disputes arising.

9. Compliance with the consent conditions may be monitored by Council in accordance with section 35(d) of the Resource Management Act. This will typically include site visits to verify compliance (or non compliance) and documentation (site notes and photographs) of the activity established under the Resource Consent. Only after all conditions of the Resource Consent have been met, will Council issue a letter on request of the consent holder.
