Disclaimer

This Land Information Memorandum (LIM) has been prepared for the applicant for the purpose of section 44A of the Local Government Official Information and Meetings Act 1987.

The LIM includes information which:

- Must be included pursuant to section 44A of the Local Government Official Information and Meetings Act 1987
- Council at its discretion considers should be included because it relates to land
- Is considered to be relevant and reliable

This LIM does not include other information:

- Held by council that is not required to be included
- Relating to the land which is unknown to the council
- Held by other organisations which also hold land information

Council has not carried out an inspection of the land and/or buildings for the purpose of preparing this LIM. Council records may not show illegal or unauthorised building or works on the land.

The applicant is solely responsible for ensuring that the land or any building on the land is suitable for a particular purpose and for sourcing other information held by the council or other bodies. In addition, the applicant should check the Certificate of Title as it might also contain obligations relating to the land.

The text and attachments of this document should be considered together.

This Land Information Memorandum is valid as at the date of issue only.

s44A(2)(a) Information identifying any special feature or characteristics of the land

This information should not be regarded as a full analysis of the site features of this land, as there may be features that the Council is unaware of. The applicant is solely responsible for ensuring that the land is suitable for a particular purpose including development.

Site Contamination

No land contamination data are available in Council's regulatory records.

Wind Zones

Wind Zone(s) for this property: Very high wind speed of 50 m/s

The wind zones are based on wind speed data specific to all building sites as outlined in NZS 3604:2011. Other factors such as topographic classes, site exposure and ground roughness determine the actual wind bracing demands and bracing elements required for the building.

For further information refer to NZS 3604:2011 Section 5 — Bracing Design

Soil Issues

Soil issues recorded. The land may not be suitable for particular development or land use purposes. A soil report may be required to/must be submitted with any building and/or resource consent application.

Effective Date	Description	Details
16/12/2013	Stability Sensitive	Please note this property was previously shown under the Transitional District Plan as being located in a Stability sensitive area.

If any soil information/reports have been prepared in relation to this property, they will be available for viewing at an Auckland Council Service Centre.

Flooding

This statement entitled "Flooding" appears on all LIMs.

Known flooding information is displayed on the map attached to this LIM entitled "Special Land Features – Natural Hazards - Flooding".

The information shown in the "Special Land Features - Natural Hazards - Flooding" map is also shown on the Auckland Council online map viewer (Geomaps), at www.aucklandcouncil.govt.nz, which is updated from time to time.

Any proposed development may require a flooding assessment to be provided by the applicant.

The absence of flooding on the "Special Land Features - Natural Hazards - Flooding" map does not exclude the possibility of the site flooding, particularly from Overland Flow Paths which may be on other properties.

Exposure Zones

New Zealand Standard 3604:2011E classifies all properties in New Zealand into zones based on environmental features including wind, earthquake, snow load and exposure. These zones are relevant to building requirements, such as strength of buildings, materials that should be used and maintenance. All building sites are classified as being in Exposure Zones Extreme Sea Spray, B, C, or D, depending on the severity of exposure to wind driven salt.

This property is classified as: Unknown or Unassessed Corrosion Zone

Unknown or unassessed - No known information is available relating to these sites. Recommended that specific sites and/or product designed and to consult suppliers information for specific durability requirements.

Coastal Erosion

This explanation appears on all LIMs, not just sites that may be susceptible to coastal erosion.

The map entitled "Natural Hazards - Coastal Erosion" shows information on potential coastal erosion and resulting land instability, if any, in relation to this site.

Coastal erosion is the wearing away of land due to coastal processes such as waves and currents. Coastal instability is the movement of land (typically as a landslide) resulting from the loss of support caused by coastal erosion.

Where applicable, the map shows lines that indicate areas susceptible to coastal instability and erosion (ASCIE) within the next 100 years. The lines do not show the future position of the coast. Rather, they show the landward edge of the area that might become unstable as a result of coastal erosion. The area between this line and the sea is considered to be potentially susceptible to erosion, or instability caused by erosion.

The lines represent three timescales, and take into account projected sea level rise based on carbon emission scenarios known as representative concentration pathways (RCP):

- 2050 (0.28 m of sea level rise; RCP 8.5)
- 2080 (0.55 m of sea level rise; RCP 8.5)
- 2130 (1.18 m of sea level rise; RCP 8.5)
- 2130 (1.52 m of sea level rise; RCP 8.5+)

The RCP projections are from the Intergovernmental Panel on Climate Change fifth assessment report (2015), and the related sea level rise values align with Ministry for the Environment Coastal Hazards and Climate Change Guidance for Local Government (2017).

The lines are based on data from a regional study ("Predicting Auckland's Exposure to Coastal Instability and Erosion", available on the Council website). The lines may not take into account local variability, and are not intended for site-specific use.

Development on sites affected by potential coastal erosion may be subject to Auckland Unitary Plan activity controls and may require a detailed coastal hazard assessment report to be completed by a qualified expert.

s44A(2)(b) Information on private and public stormwater and sewerage drains

Information on private and public stormwater and sewerage drains is shown on the **underground services map** attached.

Note: Private drainage is the responsibility of the land owner up to and including the point of connection to the public sewer or drain.

s44(2)(ba) Information notified to Council by a drinking water supplier under Section 69ZH of the Health Act 1956

Prospective purchasers should be aware of other drinking water systems connected to this property. There may also be private drinking water supply systems such as rainwater tanks or private water bores. You are advised to clarify the drinking water supply with the current landowner.

No Information has been notified to Council.

s44A(2)(bb) Information Council holds regarding drinking water supply to the land

For metered water information, please contact **Watercare (09) 442 2222** for services provided to this property.

s44A(2)(c) Information relating to any rates owing in relation to the land

Billing Number/ Rate Account:	12341895905
Rates levied for the Year 2021/2022 :	\$2,387.18
Total rates to clear for the current year (including any arrears and postponed rates):	\$1,193.58

The rates figures are provided as at 8 a.m. 02/02/2022. It is strongly advised these are not used for settlement purposes.

Retrofit Your Home Programme

The Retrofit Your Home programme provides financial assistance, advice and information to householders wanting to create an improved home environment. The scheme contributes to the achievement of the Air Quality National Environmental Standards encouraging the installation of clean heat and insulation in homes as well as supporting access to central government grants and subsidies. The programme offers homeowners a retrofit plan for their homes and financial assistance up to \$5000 repaid through a targeted rate.

 Auckland Council (09) 890 7898 if you require further information

 retrofit@aucklandcouncil.govt.nz

s44A(2)(d) Consents, Certificates, Notices, Orders or Requisitions affecting the land or any buildings on the land(da) the information required to be provided to a territorial authority under section 362T(2) of the Building Act 2004:s44A and (2)(e) Information concerning any Certificate issued by a Building Certifier pursuant to the Building Act 1991 or the Building Act 2004

Note: if the land is part of a cross lease title or unit title, consents and permits for the other flats or units may be included in this LIM. If the land has been subdivided there may be consents and permits included that relate to the original property.

It is recommended that the full property file is viewed and compared with the actual building and activities on the land to identify any illegal or unauthorised building works or activities.

Financial / development contributions

Financial and development contributions are relevant for recently subdivided land, vacant lots, new residential unit(s) or where there is further development of a site. If any financial or development contribution has not been paid, Council can recover outstanding amount(s) from a subsequent owner of the land.

Please note that financial contributions and development contributions may be paid in land, cash or a combination of these. The form of payment of contributions may be subject to negotiation but final discretion remains with the Council.

Resource Management

Planning

2 Minnehaha Avenue Titirangi

Application No.	Description	Decision	Decision Date
LUC-2015-1987	Tree Consent Proposed installation of earth anchor at base of power pole - Road reserve cnr of Huia and Minnehaha Road, Titirangi	Granted	23/11/2015
LUC60319310	Land Use Consent The construction design for a lower rear extension for a master bedroom with ensuite, address existing moisture issues at consented lower habitable room, extend upper kitchen area, separate bathroom from kitchen area, remove load bearing walls. Cedar cladding for lower master bedroom.	Granted	27/06/2018

Subdivisions

There are **NO** Subdivision resource consents recorded.

Engineering Approvals

There are **NO** Engineering approvals recorded.

If there are any conditions, then only that portion of the consent will be included in the attachments section. The applicant should satisfy themselves as to whether all conditions of resource consents for this property

have been met.

Further Information

The Council may hold additional information for this property, for example concerning resource consents for discharges to air, land or water issued by the former Auckland Regional Council prior to 1 November 2010. If you would like Auckland Council to search for this type of information, please contact us.

Building

2 Minnehaha Avenue Titirangi

Application No.	Description	Issue Date	Status
BPM-1960-15021	Addition - Bedrooms	31/12/1960	Issued (See Note 1)
BPM-1982-21698	Addition to Dwelling - Carport & Room Extension	31/12/1982	Issued (See Note 1)
BCO10280755	DBC: Res 3. The Construction design for a lower rear extension for a master bedroom with en suite, address existing moisture issues at consented lower habitable room, extend upper kitchen area, separate bathroom from kitchen area, remove load bearing walls.	30/04/2019	CCC Issued 12/07/2021 (See Note 2)
BCO10331382	Replace an old woodburner with a new one. No structural alterations. (Masport Bannockburn I2000)	14/07/2021	CCC Not Issued (See Note 3)

Note	Description
1	Permit issued prior to the Building Act 1991 taking effect. Code Compliance Certificates (CCC) were not required.
2	Code Compliance Certificate (CCC) for this consent was issued.
3	Consent approved but a final Code Compliance Certificate (CCC) for this consent has not been issued. To obtain a CCC an inspection to confirm compliance with the approved plans and standards may be sought.

Please note that prior to the Building Act 1991; Councils were not required to maintain full records of building consents [etc] issued under the Building Act. While Auckland Council has always endeavoured to maintain full records of pre-Building Act 1991 matters, not all records for this period have survived and in other cases where building work is documented, information may be incomplete. Council does not accept responsibility for any omission.

It is recommended that the Council property file is viewed and compared with the actual building and activities on site to identify any illegal or unauthorised building works or activities.

Compliance Schedules (Building Warrant of Fitness)

The Council has no record of a Compliance Schedule for this property/building.

If it is evident that any specified systems such as lifts or commercial fire alarms are present in the building, the owner must ensure there is a current compliance schedule or building warrant of fitness.

Swimming/Spa Pool Barriers

The Council has no record of a swimming pool or spa pool being registered on this property. Swimming pools and spa pools must have a barrier that complies with the Building Act 2004.

Pool barrier information is available for viewing at <http://www.aucklandcouncil.govt.nz>

Licences

There are NO current licences recorded

s44A(2)(ea) Information notified under Section 124 of the Weathertight Homes Resolution Services Act 2006

The Council has not been notified of any information under Section 124 of the Weathertight Homes Resolution Services Act 2006 relating to this property.

s44A (2)(f) Information relating to the use to which the land may be put and any conditions attached to that use

Purchasers or those intending to develop the land should satisfy themselves that the land is suitable for any intended use or future development proposal. In addition to any site specific limitations recorded below, general restrictions that apply across the region may be relevant to any development proposals on this property.

Auckland Unitary Plan - Operative in Part (AUP:OP)

The **Auckland Unitary Plan - Operative in part(AUP:OP)** applies to this property and should be carefully reviewed and considered, as it may have implications for how this property can be developed and/or used. Those parts of the Auckland Unitary Plan that are operative replace the corresponding parts of legacy regional and district plans. However, certain parts of the AUP:OP are the subject of appeals and have not become operative. If a property is subject to an appeal this will be identified on the attached Unitary Plan Property Summary Report. Where this is the case, both the Auckland Unitary Plan Decisions version and the legacy regional and district plans will need to be considered.

The AUP:OP zones, controls, overlays, precincts, and designations that apply to this property are set out in the Property Summary Report, which is attached to this memorandum.

The AUP:OP can be viewed here:

<https://www.aucklandcouncil.govt.nz/unitaryplan>

The legacy regional and district plans can be viewed here:

<https://www.aucklandcouncil.govt.nz/districtplans>

<https://www.aucklandcouncil.govt.nz/regionalplans>

The appeals to the AUP:OP can be viewed here:
<https://www.aucklandcouncil.govt.nz/unitaryplanappeals>

Auckland Council District Plan - Hauraki Gulf Islands Section (Operative 2013) (DP:HGI)

While the regional provisions in the AUP:OP apply to the Hauraki Gulf Islands, and are set out in the Property Summary Report attached to this memorandum, the AUP:OP does not contain any district provisions for the Hauraki Gulf Islands. If the Property Summary Report attached to this memorandum lists its zone as "Hauraki Gulf Islands", the district provisions that apply are in the Auckland Council District Plan Hauraki Gulf Islands Section (Operative 2013) (**DP:HGI**).

The relevant maps of the DP:HGI are attached to this memorandum, if applicable. The text of the DP:HGI can be found here:
<https://www.aucklandcouncil.govt.nz/aurakigulfislands>

Plan Changes and Notices of Requirement

Changes to the AUP:OP and DP:HGI may be proposed from time to time. These proposed plan changes may relate to either the maps or the text of those plans. Any proposed changes to the AUP:OP relevant to this property will be listed as a modification in the Property Summary Report attached to this memorandum. However, proposed changes to the DP:HGI will not appear on the Property Summary report. That information can be found on the Auckland Council website.

Please refer to the AUP:OP for information on any proposed Plan Changes or see the Auckland Council modifications website at:
<https://www.aucklandcouncil.govt.nz/unitaryplanmodifications>

Information relating to any proposed Plan Changes to DP:HGI can be found here:
<https://www.aucklandcouncil.govt.nz/aurakigulfislands>

From time to time a requiring authority, such as a Ministry of the Crown or a council controlled organisation, may notify Auckland Council that they require certain land to be designated for a certain purpose. If this property is the subject of such a notice of requirement, that notice may have implications for how this property can be developed or used from the date it is received by Council.

If this property is not on the Hauraki Gulf Islands, any notices of requirement applicable will be listed as a modification in the Property Summary Report attached to this memorandum.

If this property is on the Hauraki Gulf Islands, any notice of requirement will be available on the Auckland Council Website.

Information on all current notices of requirement can be found on the modifications page here:
<https://www.aucklandcouncil.govt.nz/unitaryplanmodifications>

Copies of the appeals to the Auckland Unitary Plan can be viewed online at:
<https://www.aucklandcouncil.govt.nz/unitaryplanappeals>

Auckland Unitary Plan

Please note that the Auckland Unitary Plan (Operative in part) applies to this property. The Unitary Plan should be carefully reviewed and considered, as it may have implications for how this property can be developed or used. Parts of the Unitary Plan that are relevant to this property relating to zones, overlays, controls, designations and other restrictions are identified in the Property Summary Report attached to this LIM.

The Unitary Plan can be accessed at Council service centres and libraries and can be found on the following internet page:

<http://www.aucklandcouncil.govt.nz/EN/planspoliciesprojects/plansstrategies/unitaryplan/Pages/home.aspx>

Information concerning Caveat, Bond, Encumbrance, Consent Notice and Covenant

For any information concerning Caveats, Bonds, Encumbrances, Consent Notices or Covenants, please refer to the Certificate of Title for this property.

s44A(2)(g) Information regarding the land which has been notified to Council by another statutory organisation

Waitākere Ranges Heritage Area

This property is located within the Waitākere Ranges Heritage Area as defined in the Waitākere Ranges Heritage Area Act 2008. A link to the Act and further information on the heritage area can be found on the council's website at:

<https://www.aucklandcouncil.govt.nz/arts-culture-heritage/heritage-walks-places/Pages/waitakere-ranges-heritage-area.aspx>

s44A(2)(h) Information regarding the land which has been notified to Council by any network utility operator pursuant to the Building Act 1991 or Building Act 2004

Underground Services and District Plan maps are attached.

Please note: Height restrictions apply where overhead power lines cross the site. Works near water services utilities may require approval. Works near high-pressure Gas, Oil or LPG pipelines create risk of damage and must first be approved. Please contact the relevant Utility provider in your area for further information.

Any escape of gas or liquid from the pipelines is potentially dangerous and requires immediate action as soon as discovered (Dial 111 and ask for the Fire Service).

Attachments

As the placement of the building/s on the attached maps is based on aerial photography we cannot guarantee the accuracy. A formal survey will indicate the exact location of the boundaries.

- Auckland Unitary Plan Property Summary Report
- Auckland Unitary Plan - Operative in part Maps and Map Legend
- Auckland Council District Plan - Hauraki Gulf Islands Section (if applicable)
- Underground Services & Utilities Map and Map Legend
- Special Land Features Map and Map Legend

Please note Map Legends have been created for use across the region and may contain features which were not captured by the previous legacy Councils; therefore the information may not be available for these maps. Please contact the Resource Management Planning Team in your area for further information on any features which may or may not appear on your map.

DECISION ON RESOURCE CONSENT APPLICATION LUC 2015-1987 at 2 Minnehaha Road (road reserve), Titirangi.

Consent Application **LUC 2015-1987** has been made by **Electrix Ltd** for a controlled activity consent to authorise removal of an area of mixed undergrowth vegetation, and works within the dripline of surrounding protected vegetation at 2 Minnehaha Road (road reserve), Titirangi. This requires resource consent for the following reasons:

Operative District Plan

Managed Natural Area

Rule 2.2 (d) – Controlled Activity

Any vegetation alteration not meeting the standards in Rule 2.1 undertaken or required by a network utility operator necessary for the maintenance of that operator's works.

Required for removal and works within the dripline of street vegetation within the Managed Natural Area.

The reasons for granting this controlled activity consent are as follows:

- (a) The application is for a controlled activity resource consent, as such only those matters over which council has reserved its control have been considered. In addition, conditions have been recommended only in relation to those matters.
- (b) In terms of section 104(1)(a) of the Resource Management Act 1991, any actual and potential effects on the environment by the proposal will be adequately avoided, remedied or mitigated by appropriate conditions of consent.

In particular, the following is noted:

- Where works occur within the dripline, appropriate methodologies as recommended within the Arboricultural Report and by conditions of consent, will ensure the long-term health and well-being of the vegetation, and allow for their continued presence within the environment.
- The vegetation required for removal is not considered to be notable examples of their species.
- The loss of vegetation will not detract from either the visual or landscape amenities associated with the wider locality due to its undergrowth stature. This will help maintain the neighbourhood character that prevails and ensure that the neighbourhood's amenity values are not compromised.
- Vegetation alteration will not reduce the ability to create linkages between native vegetation, fauna habitats, or landforms.

- (c) In terms of section 104(1)(b) of the Resource Management Act 1991, would be consistent to the relevant Objectives and Policies of the Plan, and regard has been had to the relevant assessment criteria.
- (d) In terms of section 104(1)(c) of the Resource Management Act 1991, other relevant matters, including monitoring, have been considered in the determination of the application.
- (e) All of the matters where discretion is restricted are included in the Operative Plan. There are no new relevant matters that require consideration under the Proposed Auckland Unitary Plan.
- (f) Under section 125 of the Resource Management Act 1991, unless it is given effect to, a consent lapses either on the date that is specified in the consent or if no date is specified, five years after the date of commencement of the consent.

A standard five-year period in which to give effect to a consent is not considered appropriate in relation to vegetation because a five-year period would allow a substantial change in the size and status of the vegetation due to natural growth, to the point where it should more appropriately be reassessed. As such, two years is considered appropriate.

- (g) The proposal would be consistent with Part II of the Resource Management Act 1991.
- (h) The proposal will be consistent with the purpose and objectives of the Waitakere Ranges Heritage Act and will not detract from the protection and enhancement of its heritage features for present and future generations.

Pursuant to section 108 of the RMA, this consent is granted subject to the following conditions:

ACTIVITY IN ACCORDANCE WITH THE PLANS

1. The activity shall be carried out in accordance with the plans and all information submitted with the application, and referenced by Council as LUC 2015-1987.

TERM OF CONSENT

2. This consent will lapse 2 years after the date of Council's decision unless the consent is given effect to or the Council decides to grant an extension to the period after which the consent lapses.

VEGETATION ALTERATION

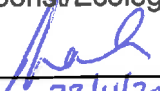

3. All works pertaining to this resource consent shall be executed in accordance with the Arboricultural Report by Andrew Benson for Arborlab Ltd, dated 9th October 2015 **except where superseded or added to by the following conditions:**
4. A copy of this Resource Consent shall be held on site throughout the period of work.
5. The consent holder shall ensure:
 - All works beneath the dripline of protected trees/vegetation shall be undertaken in accordance with best Arboricultural practices.
 - Works should cease, and Council's Environmental Monitoring Inspector (EMI) contacted immediately, if during excavations and/or activities within or adjacent to the dripline of protected vegetation more than minor adverse effects to the health and well-being of protected vegetation are being generated.
6. The Works Arborist shall document any work within the dripline/rootzone of all protected trees and keep a digital photo record.
7. Any pruning required shall be undertaken within permitted 20% levels and undertaken in accordance with accepted modern arboricultural practices.
8. All Kauri-Dieback Biosecurity Procedures are required to be followed on the full site for the duration of the works (for further information about the latest kauri dieback protocols please see www.kauridieback.co.nz).

Advice notes

1. If you disagree with any of the above conditions, relating to the processing of the application you have a right of objection pursuant to section 357A of the RMA. Any objection must be made in writing to Council within 15 working days of notification of the decision.
2. Please read the conditions of this resource consent carefully and make sure that you understand all the conditions that have been imposed before commencing the development.
3. This resource consent will lapse two years after the date of Council's decision **unless:**
 - (a) it is given effect to before the end of that period. To give effect to this consent, the activity allowed by this consent must be established and the conditions contained in the consent complied with. Please note that there must be compliance with all of the consent conditions once the land use has been established, or
 - (b) an application is made and granted prior to the expiry of that period for a time extension. The statutory considerations that apply to extensions are set out in section 125 of the RMA.

For Office Use Only:—

Drainage Permit No. _____

Date Inspected 27/8/50 Inspector _____

Decision on an application for resource consent(s) under the Resource Management Act 1991

Restricted discretionary activity for a residential activity

Application number(s): LUC60319310
Applicant: Gaston Coma
Site address: 2 Minnehaha Avenue, Titirangi
Legal description: LOT 103 DP 22899

Proposal:

To make alterations to the existing dwelling on site. The proposal involves an extension to allow for a master bedroom with an ensuite and walk in wardrobe to the east of the property. The proposal also involves an internal reconfiguration and small extension of the existing kitchen. As a result, infringements are made to the front and side yard setbacks.

The resource consents required are:

Land use consents (s9) – LUC

Auckland Unitary Plan (Operative in part)

Residential – Large Lot Zone

- The proposal involves use and development that fails to meet the following core standards and is a restricted discretionary activity under rule C.1.9(2):
 - The yard setback along the southern boundary is infringed in two areas. The master bedroom extension infringes the side yard rule by 2.5m, creating a setback in this area of 3.5m instead of the permitted 6m. The southern side yard setback is also infringed with the proposed kitchen extension by 2.3m, creating a setback in this area of 1.1m and the front yard setback is infringed by 3.6m.

Decision

I have read the application, supporting documents, and the report and recommendations on the application for resource consent(s). I am satisfied that I have adequate information to consider the matters required by the Resource Management Act 1991 (RMA) and make a decision under delegated authority on the application.

Acting under delegated authority, under sections 104, 104C and Part 2 of the RMA, the resource consent(s) is **GRANTED**.

Reasons

The reasons for this decision are:

1. The application is for restricted discretionary resource consent, and as such under s104C only those matters over which council has restricted its discretion have been considered. Those matters are:
 - H1 Large Lot Zone– H1.8.1(3)
2. In accordance with an assessment under ss104(1)(a) and (ab) of the RMA the actual and potential effects from the proposal will be acceptable as:
 - a. The infringements to the required yard setback areas still provides a level of residential amenity in line with existing development and is in keeping with the surrounding area given the small scale of the extension and in keeping in line with the existing character and location of existing building form on site.
 - b. No vegetation removal is required by the proposal which allows for the existing natural character of the site to continue.
 - c. Existing mature vegetation along the western and southern boundaries provides privacy screening for adjacent properties, maintaining the spacious landscape character of the zone and minimising dominance effects to adjoining sites.
 - d. In relation to the Waitakere Ranges Heritage Area, the development does not involve subdivision, therefore heritage features and the quality and diversity of landscapes in the area are maintained and adverse effects are less than minor
 - e. In terms of positive effects, the extensions and alternations to the dwelling will enable occupants an enhanced living space with more living space to enjoy.
 - f. With reference to s104(1)(ab), there are no specific offsetting or environmental compensation measures proposed or agreed to by the applicant to ensure positive effects on the environment and/or within the relevant matters of discretion.
3. In accordance with an assessment under s104(1)(b) of the RMA the proposal is consistent with the relevant statutory documents. In particular, it is consistent with the:
 - a. Residential – Large Lot Zone as the landscape character of the zone and amenity of neighbouring sites is maintained. The proposed development is in keeping with landscape qualities and natural features and will not exacerbate any physical limitations such as land instability. The proposed extensions will also maintain a reasonable level of sunlight access and privacy to minimise visual dominance effects to adjoining sites. The proposal is still in keeping with the spacious landscape character of the area and is not dissimilar to what exists in the surrounding environment.
 - b. Waitakere Ranges Heritage Area as the proposed development does not involve subdivision, therefore heritage features and the quality and diversity of landscapes in the area are maintained.
 - c. Stormwater Management Area Overlay as the increase in impervious surfaces are mitigated with the installation of a stormwater mitigation device as per the permitted standards.
4. As a restricted discretionary activity no other matters can be considered under s104(1)(c) of the RMA.

5. Overall the proposal is acceptable for its locality given the reasons above.

Conditions

Under sections 108 and 108AA of the RMA, this consent is subject to the following conditions:

1. The proposed activity shall be carried out in accordance with the documents and drawings and all supporting additional information submitted with the application, detailed below, and all referenced by the council as resource consent number(s) ...
 - Application Form prepared by Chris Grimshaw of Measure and Draw Ltd, dated 3 May 2018 and Assessment of Environmental Effects prepared by Chris Grimshaw of Measure and Draw Ltd, dated 21 March 2018.

2. Under section 125 of the RMA, this consent lapses five years after the date it is granted unless:
 - a. The consent is given effect to; or
 - b. The council extends the period after which the consent lapses.
3. The consent holder shall pay the council an initial consent compliance monitoring charge of \$320 inclusive of GST), plus any further monitoring charge or charges to recover the actual and reasonable costs incurred to ensure compliance with the conditions attached to this consent.

Advice note:

The initial monitoring deposit is to cover the cost of inspecting the site, carrying out tests, reviewing conditions, updating files, etc., all being work to ensure compliance with the resource consent. In order to recover actual and reasonable costs, monitoring of conditions, in excess of those covered by the deposit, shall be charged at the relevant hourly rate applicable at the time. The consent holder will be advised of the further monitoring charge. Only after all conditions of the resource consent have been met, will the council issue a letter confirming compliance on request of the consent holder.

Advice notes

1. *All earthworks shall be managed to ensure that they do not lead to any uncontrolled instability or collapse affecting either the site or adversely affecting any neighbouring properties. In the event that such collapse or instability does occur, it shall immediately be rectified.*
2. *Prior to the commencement of earthworks activity, all required erosion and sediment control measures on the subject site shall be constructed and carried out in accordance with the Technical Publication TP90 of the legacy Auckland Regional Council or Auckland Council publication GD05.*
3. *Any reference to number of days within this decision refers to working days as defined in s2 of the RMA.*
4. *For the purpose of compliance with the conditions of consent, “the council” refers to the council’s monitoring inspector unless otherwise specified. Please contact monitoring@aucklandcouncil.govt.nz to identify your allocated officer.*
5. *For more information on the resource consent process with Auckland Council see the council’s website: www.aucklandcouncil.govt.nz. General information on resource consents, including making an application to vary or cancel consent conditions can be found on the Ministry for the Environment’s website: www.mfe.govt.nz.*
6. *If you as the applicant disagree with any of the above conditions, and/or disagree with the additional charges relating to the processing of the application, you have a right of*

objection pursuant to sections 357A or 357B of the Resource Management Act 1991. Any objection must be made in writing to the council within 15 working days of your receipt of this decision (for s357A) or receipt of the council invoice (for s357B).

7. *The consent holder is responsible for obtaining all other necessary consents, permits, and licences, including those under the Building Act 2004, and the Heritage New Zealand Pouhere Taonga Act 2014. This consent does not remove the need to comply with all other applicable Acts (including the Property Law Act 2007 and the Health and Safety at Work Act 2015 and the Waitakere Ranges Heritage Areas Act 2008), regulations, relevant Bylaws, and rules of law. This consent does not constitute building consent approval. Please check whether a building consent is required under the Building Act 2004.*
