**Re: 428 Huia Road, Laingholm**

Thank you for your interest in the above property currently listed with us with **A PRICE**.

We have made available to you the following:

- Certificate of Title
- LIM
- Rates information from Auckland Council
- School Zones
- REA Code of Conduct
- REA Guide to Selling and Buying
- Sale and Purchase Agreement

428 Huia Road is 1222m<sup>2</sup> more or less fee simple estate NA15B/1063 Lot 6 Deposited Plan 39710.  
Zoning: Residential – Large Lot Zone

**THINGS WE WANT TO DRAW YOUR ATTENTION TO:**

**Land Information Memorandum (LIM)**

<b>Wind Zones</b> for this property	Very high wind speed of 50 m/s, High wind speed of 44 m/s
<b>Soil Issues</b>	30/06/2000 Stability Sensitive: Please note this property was previously shown under the Transitional District Plan as being located in a Stability sensitive area.  <i>Stability sensitive - Titirangi and Laingholm is stability sensitive. This means that should you develop the property, you will require an engineer's report.</i>

<b>Overland Flow Path</b>	This site spatially intersects with one or more Overland Flow Paths.
<b>Planning</b>	LUC-1996-410 Land Use Consent Construct Dwelling Within Infringes Height In Relation To Boundary & Driveway Exceeding Max Gradient - Granted 10/10/1996
<b>Building</b>	ABA-1996-4485 Dwelling 28/02/1997 CCC - Issued 25/01/2017 ABA-2004-793 Heater Installation 25/03/2004 - CCC Issued 08/04/2004 ABA-2014-541 RES 1: Installation of inground preformed ceramic composite swimming pool. 27/06/2014 - Lapsed
<b>Swimming/Spa Pool Barriers</b>	Permanent Outdoors Swimming Pool - SWIM-2014-84 19/03/2021 Pool Removed
<b>Waitakere Ranges Heritage Area</b>	This property is located within the Waitākere Ranges Heritage Area as defined in the Waitākere Ranges Heritage Area Act 2008.

**Settlement Date on Offer:** As soon as possible

**Disclosures :**

- The wood burner and burglar alarm have never been used by the current owner so are being sold as is
- The bedrooms have double-glazing

We recommend that when purchasing a property, you seek legal advice, complete due diligence including getting a building report and arrange your finance.

### Disclaimer

This Land Information Memorandum (LIM) has been prepared for the applicant for the purpose of section 44A of the Local Government Official Information and Meetings Act 1987.

The LIM includes information which:

- Must be included pursuant to section 44A of the Local Government Official Information and Meetings Act 1987
- Council at its discretion considers should be included because it relates to land
- Is considered to be relevant and reliable

This LIM does not include other information:

- Held by council that is not required to be included
- Relating to the land which is unknown to the council
- Held by other organisations which also hold land information

Council has not carried out an inspection of the land and/or buildings for the purpose of preparing this LIM. Council records may not show illegal or unauthorised building or works on the land.

The applicant is solely responsible for ensuring that the land or any building on the land is suitable for a particular purpose and for sourcing other information held by the council or other bodies. In addition, the applicant should check the Certificate of Title as it might also contain obligations relating to the land.

The text and attachments of this document should be considered together.

This Land Information Memorandum is valid as at the date of issue only.

## s44A(2)(a) Information identifying any special feature or characteristics of the land

This information should not be regarded as a full analysis of the site features of this land, as there may be features that the Council is unaware of. The applicant is solely responsible for ensuring that the land is suitable for a particular purpose including development.

### Site Contamination

No land contamination data are available in Council's regulatory records.

### Wind Zones

Wind Zone(s) for this property: Very high wind speed of 50 m/s, High wind speed of 44 m/s

The wind zones are based on wind speed data specific to all building sites as outlined in NZS 3604:2011. Other factors such as topographic classes, site exposure and ground roughness determine the actual wind bracing demands and bracing elements required for the building.

For further information refer to NZS 3604:2011 Section 5 — Bracing Design

### Soil Issues

Soil issues recorded. The land may not be suitable for particular development or land use purposes. A soil report may be required to/must be submitted with any building and/or resource consent application.

Effective Date	Description	Details
30/06/2000	Stability Sensitive	Please note this property was previously shown under the Transitional District Plan as being located in a Stability sensitive area.

If any soil information/reports have been prepared in relation to this property, they will be available for viewing at an Auckland Council Service Centre.

### Flooding

This statement entitled "Flooding" appears on all LIMs.

Known flooding information is displayed on the map attached to this LIM entitled "Special Land Features – Natural Hazards - Flooding".

The information shown in the "Special Land Features - Natural Hazards - Flooding" map is also shown on the Auckland Council online map viewer (Geomaps), at [www.aucklandcouncil.govt.nz](http://www.aucklandcouncil.govt.nz), which is updated from time to time.

Any proposed development may require a flooding assessment to be provided by the applicant.

The absence of flooding on the "Special Land Features - Natural Hazards - Flooding" map does not exclude the possibility of the site flooding, particularly from Overland Flow Paths which may be on other properties.

### Overland Flow Path

This site (property parcel) spatially intersects with one or more Overland Flow Paths, as displayed on the map attached to this LIM entitled “Special Land Features – Natural Hazards - Flooding”.

Overland Flow Paths are lines representing the predicted route of overland flow, based on analysis of a Digital Terrain Model (derived from aerial laser survey). Overland Flow Paths do not show the width or extent of flow.

Overland Flow Paths are based solely on the terrain and are indicative only.

Overland Flow Paths may flood depending on the amount of rain.

The Auckland Unitary Plan contains policies and rules relating to development and/or works within or adjacent to Overland Flow Paths.

Note: The terms “Flow Path” and “Flowpath” are used interchangeably.

## **Exposure Zones**

New Zealand Standard 3604:2011E classifies all properties in New Zealand into zones based on environmental features including wind, earthquake, snow load and exposure. These zones are relevant to building requirements, such as strength of buildings, materials that should be used and maintenance. All building sites are classified as being in Exposure Zones Extreme Sea Spray, B, C, or D, depending on the severity of exposure to wind driven salt.

This property is classified as: Unknown or Unassessed Corrosion Zone

Unknown or unassessed - No known information is available relating to these sites. Recommended that specific sites and/or product designed and to consult suppliers information for specific durability requirements.

## **Coastal Erosion**

This explanation appears on all LIMs, not just sites that may be susceptible to coastal erosion.

The map entitled “Natural Hazards - Coastal Erosion” shows information on potential coastal erosion and resulting land instability, if any, in relation to this site.

Coastal erosion is the wearing away of land due to coastal processes such as waves and currents. Coastal instability is the movement of land (typically as a landslide) resulting from the loss of support caused by coastal erosion.

Where applicable, the map shows lines that indicate areas susceptible to coastal instability and erosion (ASCIE) within the next 100 years. The lines do not show the future position of the coast. Rather, they show the landward edge of the area that might become unstable as a result of coastal erosion. The area between this line and the sea is considered to be potentially susceptible to erosion, or instability caused by erosion.

The lines represent three timescales, and take into account projected sea level rise based on carbon emission scenarios known as representative concentration pathways (RCP):

- 2050 (0.28 m of sea level rise; RCP 8.5)
- 2080 (0.55 m of sea level rise; RCP 8.5)
- 2130 (1.18 m of sea level rise; RCP 8.5)
- 2130 (1.52 m of sea level rise; RCP 8.5+)

The RCP projections are from the Intergovernmental Panel on Climate Change fifth assessment report (2015), and the related sea level rise values align with Ministry for the Environment Coastal Hazards and Climate Change Guidance for Local Government (2017).

The lines are based on data from a regional study (“Predicting Auckland’s Exposure to Coastal Instability and Erosion”, available on the Council website). The lines may not take into account local variability, and are not intended for site-specific use.

Development on sites affected by potential coastal erosion may be subject to Auckland Unitary Plan activity controls and may require a detailed coastal hazard assessment report to be completed by a qualified expert.

**s44A(2)(b) Information on private and public stormwater and sewerage drains**

Information on private and public stormwater and sewerage drains is shown on the **underground services map** attached.

Note: Private drainage is the responsibility of the land owner up to and including the point of connection to the public sewer or drain.

**s44(2)(ba) Information notified to Council by a drinking water supplier under Section 69ZH of the Health Act 1956**

Prospective purchasers should be aware of other drinking water systems connected to this property. There may also be private drinking water supply systems such as rainwater tanks or private water bores. You are advised to clarify the drinking water supply with the current landowner.

No Information has been notified to Council.

**s44A(2)(bb) Information Council holds regarding drinking water supply to the land**

For metered water information, please contact **Watercare (09) 442 2222** for services provided to this property.

**s44A(2)(c) Information relating to any rates owing in relation to the land**

<b>Billing Number/ Rate Account:</b>	12341651717
<b>Rates levied for the Year 2021/2022 :</b>	\$2,463.30
<b>Total rates to clear for the current year (including any arrears and postponed rates):</b>	\$-0.02

The rates figures are provided as at 8 a.m. 11/07/2022. It is strongly advised these are not used for settlement purposes.

---

**Retrofit Your Home Programme**

---

The Retrofit Your Home programme provides financial assistance, advice and information to householders wanting to create an improved home environment.

The scheme contributes to the achievement of the Air Quality National Environmental Standards encouraging the installation of clean heat and insulation in homes as well as supporting access to central government grants and subsidies. The programme offers homeowners a retrofit plan for their homes and financial assistance up to \$5000 repaid through a targeted rate.

 Auckland Council (09) 890 7898 if you require further information

 retrofit@aucklandcouncil.govt.nz

**s44A(2)(d) Consents, Certificates, Notices, Orders or Requisitions affecting the land or any buildings on the land(da) the information required to be provided to a territorial authority under section 362T(2) of the Building Act 2004:s44A and (2)(e) Information concerning any Certificate issued by a Building Certifier pursuant to the Building Act 1991 or the Building Act 2004**

Note: if the land is part of a cross lease title or unit title, consents and permits for the other flats or units may be included in this LIM. If the land has been subdivided there may be consents and permits included that relate to the original property.

It is recommended that the full property file is viewed and compared with the actual building and activities on the land to identify any illegal or unauthorised building works or activities.

### **Financial / development contributions**

Financial and development contributions are relevant for recently subdivided land, vacant lots, new residential unit(s) or where there is further development of a site. If any financial or development contribution has not been paid, Council can recover outstanding amount(s) from a subsequent owner of the land.

Please note that financial contributions and development contributions may be paid in land, cash or a combination of these. The form of payment of contributions may be subject to negotiation but final discretion remains with the Council.

### **Resource Management**

#### **Planning**

428 Huia Road Laingholm

<b>Application No.</b>	<b>Description</b>	<b>Decision</b>	<b>Decision Date</b>
LUC-1996-410	Land Use Consent Construct Dwelling Within Infringes Height In Relation To Boundary & Driveway Exceeding Max Gradient	Granted	10/10/1996

#### **Subdivisions**

There are **NO** Subdivision resource consents recorded.

#### **Engineering Approvals**

There are **NO** Engineering approvals recorded.

If there are any conditions, then only that portion of the consent will be included in the attachments section. The applicant should satisfy themselves as to whether all conditions of resource consents for this property have been met.

## Further Information

The Council may hold additional information for this property, for example concerning resource consents for discharges to air, land or water issued by the former Auckland Regional Council prior to 1 November 2010. If you would like Auckland Council to search for this type of information, please contact us.

## Building

428 Huia Road Laingholm

Application No.	Description	Issue Date	Status
ABA-1996-4485	Dwelling	28/02/1997	CCC Issued 25/01/2017 (See Note 2)
ABA-2004-793	Heater Installation	25/03/2004	CCC Issued 08/04/2004 (See Note 2)
ABA-2014-541	RES 1: Installation of inground preformed ceramic composite swimming pool.	27/06/2014	Lapsed (See Note 8)

Note	Description
2	Code Compliance Certificate (CCC) for this consent was issued.
8	No building work should have been carried out under this consent.

Please note that prior to the Building Act 1991; Councils were not required to maintain full records of building consents [etc] issued under the Building Act. While Auckland Council has always endeavoured to maintain full records of pre-Building Act 1991 matters, not all records for this period have survived and in other cases where building work is documented, information may be incomplete. Council does not accept responsibility for any omission.

It is recommended that the Council property file is viewed and compared with the actual building and activities on site to identify any illegal or unauthorised building works or activities.

## Compliance Schedules (Building Warrant of Fitness)

The Council has no record of a Compliance Schedule for this property/building.

If it is evident that any specified systems such as lifts or commercial fire alarms are present in the building, the owner must ensure there is a current compliance schedule or building warrant of fitness.

## Swimming/Spa Pool Barriers

428 Huia Road Laingholm

Pool Type	Reference	Last inspection date	Status
Permanent Outdoors Swimming Pool	SWIM-2014-84	19/03/2021	Pool Removed

Auckland Council has a record of a swimming pool/spa pool at this address. Our records show the pool has either been removed from the property or no longer requires periodic inspections because it is a "small heated pool" meeting certain safety criteria under the Building Code.

It is the owner's, occupier's, operator's, purchaser's and/or lessee's (whichever is relevant under 162C(4) of the Building Act 2004) responsibility to ensure that any residential pool barrier complies with the requirements of the Building Act 2004 at all times when the pool is filled or partly filled with water.

Pool barrier information is available for viewing at <http://www.aucklandcouncil.govt.nz>

### Licences

There are NO current licences recorded

#### s44A(2)(ea) Information notified under Section 124 of the Weathertight Homes Resolution Services Act 2006

The Council has not been notified of any information under Section 124 of the Weathertight Homes Resolution Services Act 2006 relating to this property.

#### s44A (2)(f) Information relating to the use to which the land may be put and any conditions attached to that use

Purchasers or those intending to develop the land should satisfy themselves that the land is suitable for any intended use or future development proposal. In addition to any site specific limitations recorded below, general restrictions that apply across the region may be relevant to any development proposals on this property.

### Auckland Unitary Plan - Operative in Part (AUP:OP)

The **Auckland Unitary Plan - Operative in part(AUP:OP)** applies to this property and should be carefully reviewed and considered, as it may have implications for how this property can be developed and/or used. Those parts of the Auckland Unitary Plan that are operative replace the corresponding parts of legacy regional and district plans. However, certain parts of the AUP:OP are the subject of appeals and have not become operative. If a property is subject to an appeal this will be identified on the attached Unitary Plan Property Summary Report. Where this is the case, both the Auckland Unitary Plan Decisions version and the legacy regional and district plans will need to be considered.

The AUP:OP zones, controls, overlays, precincts, and designations that apply to this property are set out in the Property Summary Report, which is attached to this memorandum.

The AUP:OP can be viewed here:

<https://www.aucklandcouncil.govt.nz/unitaryplan>

---

The legacy regional and district plans can be viewed here:

<https://www.aucklandcouncil.govt.nz/districtplans>

<https://www.aucklandcouncil.govt.nz/regionalplans>

The appeals to the AUP:OP can be viewed here:

<https://www.aucklandcouncil.govt.nz/unitaryplanappeals>

### **Auckland Council District Plan - Hauraki Gulf Islands Section (Operative 2013) (DP:HGI)**

While the regional provisions in the AUP:OP apply to the Hauraki Gulf Islands, and are set out in the Property Summary Report attached to this memorandum, the AUP:OP does not contain any district provisions for the Hauraki Gulf Islands. If the Property Summary Report attached to this memorandum lists its zone as "Hauraki Gulf Islands", the district provisions that apply are in the Auckland Council District Plan Hauraki Gulf Islands Section (Operative 2013) (DP:HGI).

The relevant maps of the DP:HGI are attached to this memorandum, if applicable. The text of the DP:HGI can be found here:

<https://www.aucklandcouncil.govt.nz/aurakigulfislands>

### **Plan Changes and Notices of Requirement**

Changes to the AUP:OP and DP:HGI may be proposed from time to time. These proposed plan changes may relate to either the maps or the text of those plans. Any proposed changes to the AUP:OP relevant to this property will be listed as a modification in the Property Summary Report attached to this memorandum. However, proposed changes to the DP:HGI will not appear on the Property Summary report. That information can be found on the Auckland Council website.

Please refer to the AUP:OP for information on any proposed Plan Changes or see the Auckland Council modifications website at:

<https://www.aucklandcouncil.govt.nz/unitaryplanmodifications>

Information relating to any proposed Plan Changes to DP:HGI can be found here:

<https://www.aucklandcouncil.govt.nz/aurakigulfislands>

From time to time a requiring authority, such as a Ministry of the Crown or a council controlled organisation, may notify Auckland Council that they require certain land to be designated for a certain purpose. If this property is the subject of such a notice of requirement, that notice may have implications for how this property can be developed or used from the date it is received by Council.

If this property is not on the Hauraki Gulf Islands, any notices of requirement applicable will be listed as a modification in the Property Summary Report attached to this memorandum.

If this property is on the Hauraki Gulf Islands, any notice of requirement will be available on the Auckland Council Website.

Information on all current notices of requirement can be found on the modifications page here:

<https://www.aucklandcouncil.govt.nz/unitaryplanmodifications>

Copies of the appeals to the Auckland Unitary Plan can be viewed online at:

<https://www.aucklandcouncil.govt.nz/unitaryplanappeals>

### **Auckland Unitary Plan**

Please note that the Auckland Unitary Plan (Operative in part) applies to this property. The Unitary Plan should be carefully reviewed and considered, as it may have implications for how this property can be

developed or used. Parts of the Unitary Plan that are relevant to this property relating to zones, overlays, controls, designations and other restrictions are identified in the Property Summary Report attached to this LIM.

The Unitary Plan can be accessed at Council service centres and libraries and can be found on the following internet page:

<http://www.aucklandcouncil.govt.nz/EN/planspoliciesprojects/plansstrategies/unitaryplan/Pages/home.aspx>

### **Information concerning Caveat, Bond, Encumbrance, Consent Notice and Covenant**

---

For any information concerning Caveats, Bonds, Encumbrances, Consent Notices or Covenants, please refer to the Certificate of Title for this property.

#### **s44A(2)(g) Information regarding the land which has been notified to Council by another statutory organisation**

##### **Waitākere Ranges Heritage Area**

This property is located within the Waitākere Ranges Heritage Area as defined in the Waitākere Ranges Heritage Area Act 2008. A link to the Act and further information on the heritage area can be found on the council's website at:

<https://www.aucklandcouncil.govt.nz/arts-culture-heritage/heritage-walks-places/Pages/waitakere-ranges-heritage-area.aspx>

#### **s44A(2)(h) Information regarding the land which has been notified to Council by any network utility operator pursuant to the Building Act 1991 or Building Act 2004**

Underground Services and District Plan maps are attached.

Please note: Height restrictions apply where overhead power lines cross the site. Works near water services utilities may require approval. Works near high-pressure Gas, Oil or LPG pipelines create risk of damage and must first be approved. Please contact the relevant Utility provider in your area for further information.

Any escape of gas or liquid from the pipelines is potentially dangerous and requires immediate action as soon as discovered (Dial 111 and ask for the Fire Service).

## Attachments

As the placement of the building/s on the attached maps is based on aerial photography we cannot guarantee the accuracy. A formal survey will indicate the exact location of the boundaries.

## NOTATIONS

### Appeals to the Proposed Plan

 Appeals seeking changes to zones or management layers

### Proposed Plan Modifications to Operative in part Plan

 Notice of Requirements

 Proposed Plan Changes

### Tagging of Provisions:

[ i ] = Information only

[ rp ] = Regional Plan

[ rcp ] = Regional Coastal Plan

[ rps ] = Regional Policy Statement

[ dp ] = District Plan (only noted when dual provisions apply)

## ZONING

### Residential

-  Residential - Large Lot Zone
-  Residential - Rural and Coastal Settlement Zone
-  Residential - Single House Zone
-  Residential - Mixed Housing Suburban Zone
-  Residential - Mixed Housing Urban Zone
-  Residential - Terrace Housing and Apartment Buildings Zone

### Business

-  Business - City Centre Zone
-  Business - Metropolitan Centre Zone
-  Business - Town Centre Zone
-  Business - Local Centre Zone
-  Business - Neighbourhood Centre Zone
-  Business - Mixed Use Zone
-  Business - General Business Zone
-  Business - Business Park Zone
-  Business - Heavy Industry Zone
-  Business - Light Industry Zone

### Open space

-  Open Space - Conservation Zone
-  Open Space - Informal Recreation Zone
-  Open Space - Sport and Active Recreation Zone
-  Open Space - Civic Spaces Zone
-  Open Space - Community Zone
-  Water [i]

### Rural

-  Rural - Rural Production Zone
-  Rural - Mixed Rural Zone
-  Rural - Rural Coastal Zone
-  Rural - Rural Conservation Zone
-  Rural - Countryside Living Zone
-  Rural - Waitakere Foothills Zone
-  Rural - Waitakere Ranges Zone

### Future Urban

-  Future Urban Zone
-  Green Infrastructure Corridor (Operative in some Special Housing Areas)

### Infrastructure

-  Special Purpose Zone - Airports & Airfields  
Cemetery  
Quarry  
Healthcare Facility & Hospital  
Tertiary Education  
Māori Purpose  
Major Recreation Facility  
School
-  Strategic Transport Corridor Zone

### Coastal

-  Coastal - General Coastal Marine Zone [rcp]
-  Coastal - Marina Zone [rcp/dp]
-  Coastal - Mooring Zone [rcp]
-  Coastal - Minor Port Zone [rcp/dp]
-  Coastal - Ferry Terminal Zone [rcp/dp]
-  Coastal - Defence Zone [rcp]
-  Coastal - Coastal Transition Zone

Precincts

--- Rural Urban Boundary

--- Indicative Coastline [i]

The information Council holds in relation to Special Land Features differs based on the area a property is located in. Those areas where information is held on a Special Land Feature is denoted in the legend above.

Legend updated: 22/07/2021

## **Comments**

This site poses a number of constraints to its development, which have required the applicant to spend a lot of time making sure that various requests are satisfied. The narrow nature of the site, coupled with the side yard requirements, and building coverage requirements has resulted in the applicant choosing to erect a two storied dwelling in an attempt to best utilise the available building platform. The use of pole foundations, with the parking provided underneath has resulted in the proposed dwelling infringing overall height, elevation height, and height in relation to boundary requirements. But these infringements have received affected parties consents.

The very steep nature of the front (road end) of the property has made the provision of safe access to the site another of the time consuming projects within this application. The original design for the access had to be redrawn in order to meet with safety platform and sightline requirements. To facilitate the access two retaining walls are to be built, one above, and one below the carriageway. The retaining walls will stabilise the fill (from the construction of Huia Road) that is currently on the front portion of the section. The upper retaining wall is to be backfilled, and with the permission of City Infrastructure this area is to be used as visitor parking. This will avoid any possible danger from people parking on the very narrow road berm.

There is a requirement for bush clearance, but as much as possible the development is to be located on the area of the section that has already been cleared. The bush clearance proposed is for the construction of the eastern end on the dwelling, the deck, and part of the parking and manoeuvring area. On advice from one of Council's Environmental Protection Staff the required clearance is to be offset by a condition of consent relating to replanting. Planting on the site to improve slope stability is also a recommendation of the Geotechnical Assessment prepared by David J. Convery of Rock and Soil Consultants, dated 22nd November 1990, and reinforced by a later report, undertaken specifically for this proposal, by Trevor Banks, also of Soil and Rock Consultants, and dated 19 July 1996

The area of impermeable surfaces to be created on-site as part of this proposal is greater than allowed, but is virtually unavoidable. A sealed surface is required on the drive to ensure traction in the wet, and the driveway and manoeuvring area has been kept to the smallest area and length possible, without compromising safety. It must be noted that it would not be possible to gain access to the site in any other manner than is proposed, due to the narrowness, and steep nature of the road frontage. A drainage design has been included as part of the driveway and retaining wall construction. This drainage is to be used to take any runoff away from the road and the impermeable surfaces, and also to avoid any water build up behind the retaining structures. The retaining walls and the drainage have been noted as improvements to the site, improving both the stability of the section and of the road itself. The excessive areas of impermeable surfaces are also seen to be offset by the condition for replanting.

## **RECOMMENDATION**

That, pursuant to Sections 104, 105 and 108 of the Resource Management Act 1991, being satisfied that no body or person is adversely affected, consent be granted to the application by Craig Nagel to build a two storied dwelling at 428 Huia Road, Woodlands being Lot 6 DP 39710 for the following reasons:

- 1) Affected parties consent has been obtained.
- 2) Any possible adverse effects will be mitigated by conditions of consent.

**Conditions imposed on the consent are as follows:**

- (1) That all reticulated services, including power and telephone, shall be provided underground.
- (2) Within 3 months of the issue of the building consent all access, manoeuvring and parking areas shall be formed and finished in an all-weather surface, to the satisfaction of the Planning Manager.
- (3) The removal of native bush on the site is to be confined to the area of the building platform only, and where this removal includes the removal of pungas under 3.0 metres in height, these are to be replanted elsewhere on-site, to the satisfaction of the Planning Manager.
- (4) A weed-eradication programme to combat the ginger and any other noxious plants on-site is to be implemented and undertaken within 6 months of the issue of Resource Consent, to the satisfaction of the Planning Manager.
- (5) An area of 44m<sup>2</sup> is to be replanted on-site in order to provide screening of the dwelling, to replace native bush that is to be removed, and to provide increased slope stability (as per the engineers recommendations). This planting is to be undertaken during the next available planting season after construction is completed and should be in accordance with the map attached and marked Appendix A. All plants should be a minimum of 50 cms tall at the time of planting, and should be implemented with an additional topsoil mix, with planting at a density of approximately one plant per square metre, to the satisfaction of the Planning Manager.

The following is a list of recommended species for the site.

kohuhu	<i>Pittosporum tenuifolium</i>
flax	<i>Phormium tenax</i>
karamu	<i>Coprosma lucida/Coprosma robusta</i>
lacebark	<i>Hoheria populnea</i>
karaka	<i>Corynocarpus laevigatus</i>
5-finger	<i>Pseudopanax arboreus</i>
lancewood	<i>Pseudopanax crassifolium</i>
mahoe	<i>Meliclytus ramiflorus</i>
mapou	<i>Myrsine australis</i>
titoki	<i>Alectryon excelsus</i>
kanuka	<i>Kunzea ericoides</i>

- (6) The recommendations of the Geotechnical Assessment undertaken in relation to the site by Trevor Banks of Soil an Rock Consultants, and dated 19th July 1996, are to be strictly adhered to in the design and construction of this proposal, to the satisfaction of the Planning Manager.
- (7) Before the Building Consent is lodged a consent must be obtained from City Infrastructure to Erect a Structure on Dedicated Road Reserve.
- (8) The building is to have exterior colours with a reflectance value of less than 40%, and it's roof is to be a non-reflective surface.
